HEALTHCARE SOLUTION

A comprehensive digital solution for healthcare organisations

www.maquae.com

ELECTRONIC HEALTH RECORDS

The software allows you to easily record medical data in customizable forms and read the patient history, treatments, diagnosis, and lots more in one place in a jiffy! Helps in handling the patient's admissions with great ease, allows hospitals to add their bills, and bed charges, arrange the admission dates, and discharge patients without any fuss.

CLINIC MANAGEMENT

Setup your timings, and make patients book appointments by IVR, App, or Online. Manage waiting room and queues! Create bills and record payments and ensure you get what you deserve! Look good, by providing printed receipts with your clinic branding! Build your practice, create a digital trail of all patient visits, their histories, and diagnosis, improve care, and provide printed prescriptions on your letterhead!

HOSPITAL MANAGEMENT SYSTEM

Centrally monitor revenue from different departments (finance, stores, procurement, inventory, and HR) in addition to core hospital parameters. We provide your hospital with comprehensive data on patient traffic for different hospital procedures. The modules are integrated, so data flows seamlessly across the system. Eliminate the costs of integrating and the hassle of approaching multiple vendors for your different needs – for example, telemedicine, queue management, PACS, and HR. All patient health records can be stored digitally and can be integrated with every hospital department, enabling more effective patient management.

LAB INFORMATION MANAGEMENT

Keep track of your sample information, scientific data, and results. It allows you to actively manage your entire lab process from instrument maintenance and samples to people and consumables. LIMS manages laboratory samples and associated data, standardizes workflows, reduces human error, and increases efficiency.

BILLING

Medical billing, reporting, and handling are made easy. Stay in charge of your pharmacy operations for efficient operations and reporting modules. Manage expenses, settlements, complaints, and accounts from a single touchpoint.

PHARMACY MANAGEMENT

Automate the pharmacy workflow. This includes such tasks as reviewing physician orders and preparing medications, controlling the inventory and making drug orders, handling billing and insurance, providing counseling, identifying incompatibilities, and more — all while following legal protocols and compliances.

QUEUE MANAGEMENT

Decrease customer wait times, improve waiting line management, and increase revenues with Queue Management Solution. Excessive queuing and waiting are among the leading causes of consumer dissatisfaction in banks, retail stores, hospitals, and institutions. Improve customer flow, manage queues with virtual and linear queuing solutions, queue displays, appointment bookings, queuing apps, and visitor flow monitoring software.

LABORATORY MANAGEMENT

Provides streamlined control and organizational schemes for controlling equipment, sorting and counting samples, managing and maintaining animal colonies, or any project complex enough to require constant computer control. Our solution is robust with a variety of features to support your lab's operational goals and streamline your workflow. Flexible and scalable to fit into your lab's current requirements and grow with you as your needs change. Taking pride in keeping your data secure, our cloud infrastructure is hosted in a state-of-the-art data center held to the highest standards.

APPOINTMENT MANAGEMENT

Collaborate, manage projects, and reach new productivity peaks. Customize and expand with more features as your teamwork grows. Manage projects, organize tasks, and build team spirit—all in one place. Powering a productive team means using a powerful tool (and plenty of snacks). From meetings and projects to events and goal setting, the intuitive features give any team the ability to quickly set up and customize workflows for just about anything.

FIXED ASSET MANAGEMENT

Allow users to easily manage fixed assets, with end-to-end visibility into the management process, from acquisition until disposition. Track asset movements across your enterprise and ensure compliance through periodical audits. Continuously digitize, record, and maintain asset details and relevant documents in a central document management repository, thereby eliminating the dependency on physical records.

PAYROLL & ATTENDANCE MANAGEMENT

The most flexible and easy payroll management software. Packed with the most robust features like an income tax calculator, Flexi reimbursements, and Expat grossing up tax, it surely is your perfect tool for fast payroll calculation.
