

# MAQ MANUFACTURING ERP SOLUTION

Comprehensive tools & solutions for various  
department operations in manufacturing industry

[WWW.MAQUAE.COM](http://WWW.MAQUAE.COM)

# TIME TRACKING SYSTEM

Break down your hours by projects, clients, and tasks to see what's making you money and holding you back. Track URLs and app usage to know which programs or websites your employees run while working. Let you capture team members' computer screens at random intervals of time.

# ORDER MANAGEMENT SYSTEM

Reduce fulfillment costs by offering multiple deliveries or pick-up options.

- Ship orders from the best location
- Easily set and manage split shipment rules
- Automatically trigger stock transfers across channels

Not every location has the same fulfillment capabilities. Being able to optimize at the store level helps improve your customer experience.

- Allocate orders based on capacity or performance
- Increase store staff efficiency
- Reduce markdowns

# QUALITY MANAGEMENT SYSTEM

Quality Management System (QMS) is designed to help your company automate its journey toward excellence. Within a company, the QMS is the connection and interaction of people, processes, and documentation. It is a set of company rules, procedures, and functions aimed at ensuring that customer expectations and requirements are satisfied consistently and reliably. These describe how a company will create, document, control, and distribute all of its products and/or services. QMS software provides the methods, processes, structure, and resources required to simplify manufacturing and ERP operations while handling quality issues efficiently and cost-effectively.

# ACCOUNTING & PAYROLL

Payroll and Attendance Management software is the most versatile and user-friendly on the market. HR and payroll departments have a lot in common, and systems need to be in sync to avoid wasting time entering the same information into multiple systems. Our payroll and attendance management software makes it easier by combining the capabilities of a robust payroll administration system with an equally powerful HR management solution.
